# OUR NEW FACILITIES

## OUR FACILITIES

We have expanded our facilities with the construction of a new factory dedicated to pet food under our Sinfonía brand, allowing us to better meet market demand with our seeds and mixtures.

Our new facilities consist of a 4,500 m<sup>2</sup> building equipped with separate lounges for the processing of seeds, cereals, and grains, with a storage capacity of more than 2,000 tons.

Our main goal is to offer the highest quality in all our processes. To achieve this, we have a fully qualified team of professionals to offer the best market solutions. Likewise, our facilities are equipped with the highest technology machinery, allowing us to adapt to the needs and demands of our customers.

## WIDE RANGE OF PRODUCTS

---

We offer a wide range of seeds and mixtures for your pets' food, packaged in various presentations and formats.

We have small formats such as 1 kg, 500 g, and 700 g bags, as well as larger formats like 5 kg or 25 kg sacks, always catering for and adapting to the market and our customers' needs.

All our products come from the best raw materials, carefully selected to provide your pet with the healthiest food.

## THE BEST FOOD FOR YOUR PET

---

For more than 6 decades, we have specialized in offering the best food for small pets, birds, and rodents, selecting the highest quality products.

Our philosophy is based on providing healthy and balanced nutrition to take care of your pet's well-being. Nutrition is fundamental to their health, vitality, and well-being, and we must ensure that through it, they receive all the necessary nutrients for a healthy and happy life.

We have a fully equipped factory where we use the best raw materials, with carefully selected ingredients to guarantee a balanced diet rich in proteins, minerals, and vitamins, so your pet grows active and healthy.

Our seeds are natural, and we work with the most demanding quality standards in their cleaning.

At Ferrer Segarra, we make sure your pet receives the best nutrition by carefully overseeing every process.
